

Chito & Rhea

Hello!

We are Rhea and Chito, and we appreciate that you are taking the time to learn more about us. We thank you for considering us to be your child's adoptive parents. We promise that your baby will be loved, cherished, nurtured and guided throughout life should you choose us.

Although we have never met, we have a tremendous amount of admiration for your strength and courage. We hope that this letter and these photographs provide a glimpse at the loving home we have to offer your child. Thank you for giving us the opportunity to tell you about ourselves and our dreams for the future.

Our Life

We met in Manila, Philippines in 2003 through a friend of Chito, who happened to be the brother of Rhea's college friend. After meeting and going out together, our friendship blossomed into the realization that we were in love.

Two years later, on January 6, 2007, we decided to tie the knot as husband and wife in a simple ceremony attended by our families, close relatives and friends.

Having both been raised in the Philippines, we came to the United States in 2015 and made our home in Dallas, Texas. We each received our U. S. Citizenship in August 2021. We love our life in Texas and have careers that we enjoy. Rhea is a registered nurse in a hospital intensive care unit while Chito works as a Federal employee for the U. S. Postal Service.

We are a very loving couple, and we love kids. One of our favorite things to do is to call and chat over Messenger with our nieces and nephew in the Philippines. It is important to us to continue to be part of their lives despite living in different countries. Being a part of their lives has made our desire to become parents even stronger, and when that day comes, we know it will be perfect!

Enjoying Life

We enjoy our time together, and we know adopting a child will add to the bond we share. We appreciate the simple things in life like watching movies, taking walks around the neighborhood, or sharing a meal and talking about our days. We also enjoy playing light sports like badminton.

Another favorite thing to do is travel, especially for reunions and visits with our families, friends and relatives.

Seeing our siblings with their kids and our parents enjoying their grandchildren makes us eager to adopt a child. We treasure time with our young nieces and nephew when we get to talk and laugh, play together, help them with their homework, and prepare their favorite snacks and foods. We are excited to do all these things and much more when we become parents.

Chito

Chito is the ideal husband and future father because of the way he takes care of me and our families. Securing his family's future has always been important to Chito, and we have a nice home and comfortable life because of his hard work.

Practicality and simplicity are two characteristics I love the most about Chito. He strives to live a well-balanced life, including time for family, refreshment, recreation, and his Creator.

He always makes sure he is on top of everything, whether big or small. He can troubleshoot and repair household gadgets, our vehicles, and many other things. Chito is a good cook, too, and prepares nutritious meals.

When Chito is relaxing, he is at home reading meaningful articles and books or watching entertaining movies or current event or news programs. He also takes walks and jogs in the community park in the morning or afternoon.

Chito loves to sing and play guitar, too. I know he looks forward to singing and playing guitar to soothe a little one, hopefully one day soon.

Rhea

Rhea is dedicated, reliable and has a sense of responsibility that makes her a perfect partner. She is trustworthy and faithful.

She is careful and methodical in her professional and home life, but also knows how to have fun. She plays badminton, sings, dances, and loves to eat and try new things.

She is a good cook and even makes me special lunches to take to work. She likes to bake cakes and cookies. She prepares Filipino dishes and cooks pasta, barbeque and dim sum.

Rhea's personality is quiet and reserved. She is sensitive to the feelings of others, which makes her a wonderful nurse. She is optimistic, energetic and rarely complains. She brings lots of love, harmony and balance to our home. She plans and organizes activities such as family dinners, karaoke, playing board games, and storytelling time.

Rhea loves her family. She takes great pleasure in helping others. She is a good friend and is loved by the people around her. She is a responsible godmother to her friend's children.

Rhea will be a loving and dedicated mother. She will teach your child to sing, dance, cook and pray. She will love your child unconditionally, take care of him/her, and will always prioritize your child's needs above her own. She will make your child feel that she/he is the most important human being in the world. She will be a good role model and will always make time to have fun with your child.

Home

We have a nice home in the suburbs of Dallas, Texas with plenty of room for a child. We have a large back yard complete with a playhouse that is ready for a child to enjoy. Chito loves caring for our yard and planting pretty flowers.

We are fortunate to be surrounded by good neighbors. We have gotten to know almost everyone and love living in a place where there is a wave and smile from everyone. The neighborhood is safe and very child-friendly. We love where we live and how close we are to the local schools, library and community park.

Our Community

We live in a small city east of Dallas. We love the size of our town as it is big enough to have lots of things to do and see but small enough to still know people. We have a water park, lake, soccer field, small shops and historic sites all in our area. There are so many fun things to do and see right by us.

DALLAS

Dallas is a short car or light rail train ride away. There are so many things to do and see in the city. There are the various music, arts and history centers as well as kids' activities like the zoo and aquarium. No matter what you want to do you can probably find it in the city.

Family

We are fortunate and blessed to have been raised by supportive and close-knit families. We are very close to our parents and communicate daily by phone and Messenger. We go back to the Philippines to visit once every two years.

Rhea's parents live in the Philippines, as does her brother Allan and his family. Her brother Louie and his family live in Illinois. Chito's parents live in the Philippines, along with his sisters Cherry and Che, brother Totie, and each of their families.

We have excellent relationships with our extended family and enjoy traveling together for family reunions and special occasions. Our families are tremendously supportive of our desire to adopt and will warmly welcome, love and support your child.

LIVE FOR THE
moments

THAT YOU CAN'T
PUT INTO WORDS

Why Adoption?

In our over 16 years of marriage, we have been unable to conceive a child. We have prayed for a child to be a part of our family, and we have had many talks as a couple about how we look forward to becoming parents. We are grateful that adoption will help us to realize our dream.

We firmly believe that there is a child who is meant for us, and we are thankful for this possible opportunity to open our hearts and our home to your child.

Kids in our life

Thank
You

We are excited and grateful that you have taken the time to learn more about us. With open hearts, we are dedicated to creating a safe, loving, stable environment in which your child can grow and flourish.

Know that we wish you the best during this time. More than anything else, we hope you will find a loving home for your child, whether it is with our family or another. We stand ready to love and cherish the child that we may be blessed with. Thank you for considering us as parents for your child.
