

Jessica and Rob

Dear Birth Parents,

We're Jessica and Rob and it's so great to meet you. We've been together since 2010, when we first met at a birthday party where our friends tried to set us up, thinking we would be a great match. We didn't hit it off that night, but when we met again at another party a few months later, we talked for hours, took the train back together (Jessica purposely missed her train to make this happen), and went on our first date later that week. Rob still remembers the dress Jessica wore that day. We truly believe timing is everything and that life all comes together as it's meant to.

Rob balances me. He reminds me that the unknown can be a fabulous journey and if something doesn't go as expected, it just means something even better is about to happen. Jessica is always there for me. She has opened my eyes to new experiences and adventures and pushed me outside my comfort zone.

Our life has had many wonderful moments, but also unexpected challenges, and we've learned to navigate through it together. We always wanted children, and while we are not able to have any biologically, this has not diminished our desire to start a family. We have so much love to give and want to make our world complete by bringing a child into our hearts and the wonderful life we have created.

“Life isn’t about waiting for the storm to pass. It’s about learning to dance in the rain.”

Our Promise...

Thank you so much for considering us to be the adoptive parents of your child. We know this is not an easy decision, and there are no words to describe how much we admire your strength. Please know that in choosing us, you are giving us the gift and blessing of parenthood, and for that, we will be forever grateful.

We have spent years preparing for this moment, and promise to surround this child with love, warmth, safety, security, attention, and comfort. We will respect, honor, and support their individuality and identity while also making them the center of our family and our lives. They will be instantly surrounded by cousins, grandparents, aunts, and uncles where love will know no limits.

In all of this, they will also always know who they are, where they came from, and everything you selflessly did to make this happen. You are so brave, and we hope you choose us.

Jessica...

Jessica has a successful career in data software, but also loves to write. She takes pride in her work and has strong connections with her coworkers, who have become some of her closest friends. She is fiercely loyal, driven, and strives to get things done. While Jessica did not have the perfect childhood, as her parents divorced when she was very young, she still does anything and everything to make her family and friends happy. In fact, she's had the same two best friends since 4th grade.

Jessica spent the past few years learning how to cook. She loves to try new restaurants and explore new foods, but Asian will always be her favorite. She is an avid reader and volunteers to read to children in shelters. She also loves a good reality show when she wants to unwind. The beach is her happy place. From Maine to New Jersey, she loves being by the water and can't wait to create vacation memories with a child.

Her thoughtfulness, patience, and warmth will make her an excellent mom. She shares so much of herself with everyone in her life. I have always known Jessica to be a kind and caring person who lives life to the fullest.

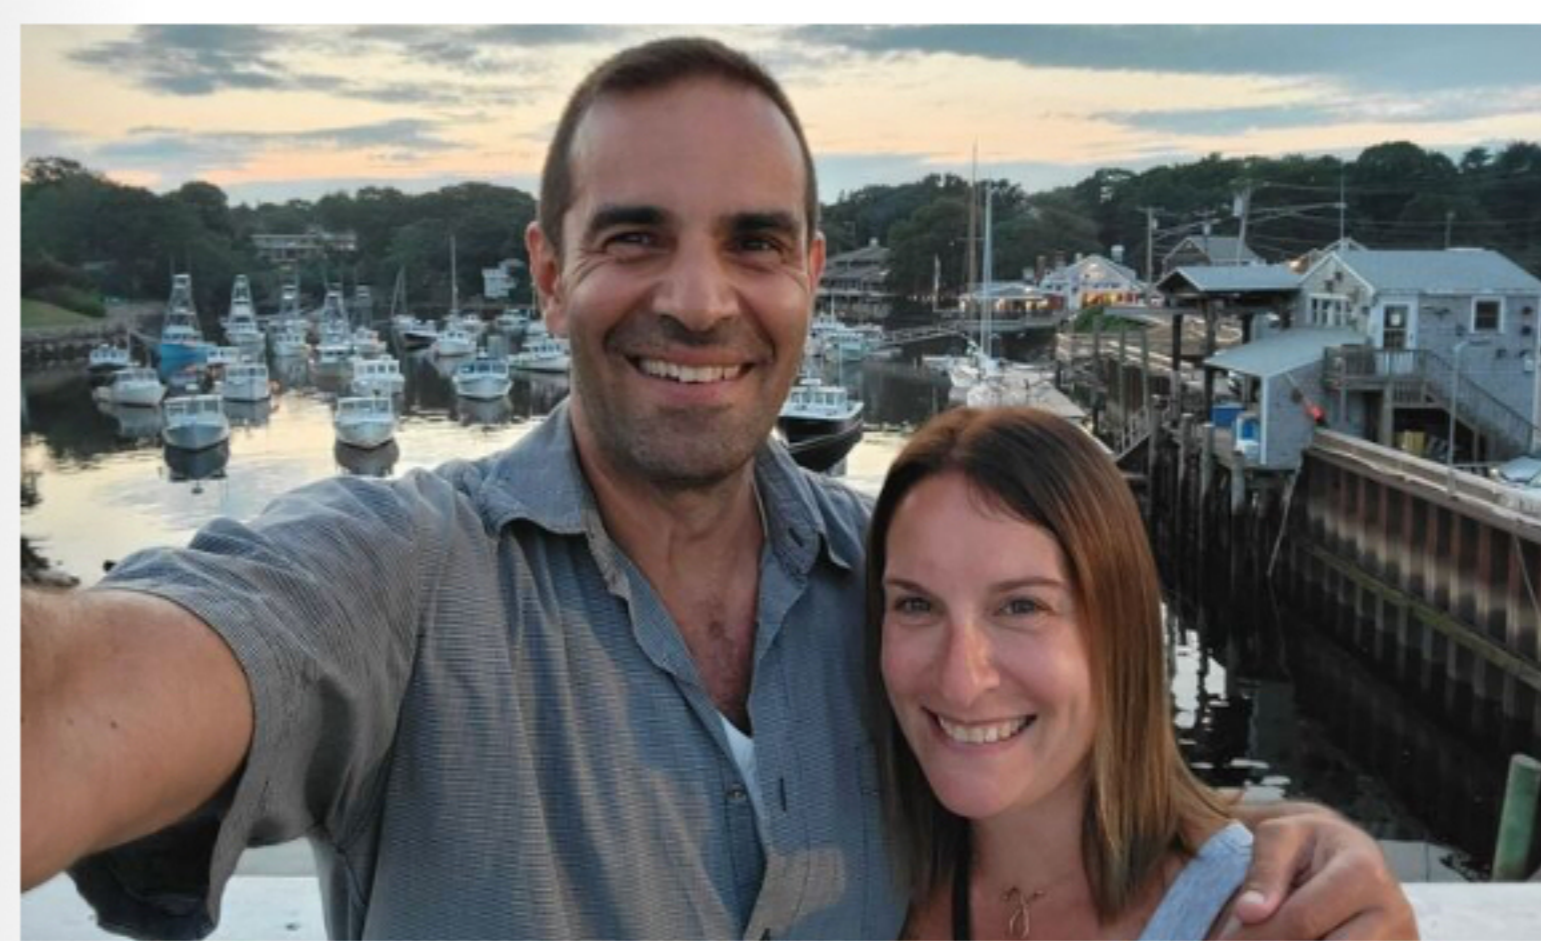

Rob...

I am so lucky to have Rob in my life. He is a dedicated, hard worker who strives for the best. Rob has a successful career in financial software and has always been a provider. It is extremely important to him to make sure his family is safe and stable. He is warm and caring and a great listener who enjoys helping others.

Rob is fun and loves to make people laugh. He enjoys being outside in nature and taking long walks and hikes. He also loves to travel and lived abroad for many years. He enjoys eating food from different cultures and experiencing all life has to offer. He loves listening to music (especially 70s songs) and watching sports (football is his favorite). There are so many experiences that he cannot wait to share with a child.

I greatly admire Rob's unselfish and loving nature. I cannot wait to begin the journey of parenthood with him and know he will be an incredible dad.

Jessica's Family...

I am so lucky to have two amazing women in my life to turn to and lean on. My mom Sheila, or Grammy as my niece and nephew call her, is a retired 1st grade teacher. She is a caretaker above all else. She is always asking how she can help and looks to lessen any burden I have. She raised me as a single mom and showed me how to be tough but loyal and loving.

My sister, Meredith, is married to Jeremy. Together they have two young children, Aleena and Devin, who cannot wait for another cousin to play with.

Aleena is a sweet, loving, sensitive, and artistic child who is amazingly good at drawing. She is also taking ballet and tap lessons. She loves wearing crowns and tiaras and making us laugh. Devin looks just like my grandfather, who he is named after, and even inherited his love of hot dogs. Trucks and balls are his favorite toys and he is a great sharer.

Rob's Family...

My parents, Harriet and Steve, have been married for over 50 years. They are dedicated to each other and are amazing role models. My father is a retired dentist who loves animals and volunteers at a shelter where he walks abandoned dogs. He also enjoys crossword puzzles and gardening. He is always there for you if you need a favor.

My mother was a stay at home mom. After we went to college, she became an office assistant. She is a warm, caring, and very sociable person. She is a great listener and always there for her children, family, and friends when we need to talk.

My sister Beth is an engineer. She lives in California and loves to renovate and be on the water in a boat. She is going to be the most fun, loving aunt and my parents are so excited to become grandparents for the first time. I know they will all love this baby tremendously.

We are so happy to have found you. Thank you for reading our profile to see the special times we have shared while also navigating through challenges. Please know you are reading about a couple that will devote themselves to this child and never take them for granted. When we are fortunate enough to adopt, this child will be so loved because we are generous, kind hearted, responsible, and have so much to give.

We promise to raise a baby to love others and be compassionate and willing to help others in need. Our home is filled with family and laughter. This child's well being, happiness, and success will always be our number one priority.

We hope you see something in us that makes you want to reach out. Do you also love the warmth of a beach? Reading? Hiking? Watching bad television? A really good order of dumplings? Whatever the connection, we are so excited about this next phase in our journey and look forward to bringing a child into our lives. We are honored to be considered as adoptive parents and so appreciate you.

Xoxo,
Jessica and Rob
